Show + Summary

Site involves a land/sea interface. White is important color; rounded components are salient, suggesting a "dome-like" nature. ~~There's~~ There's a sense of something "swirling" at the site, of a seemingly nebulous consistency. Scales of site components seem rather large.

Site conveys strong impression of ~~race track~~
 or a similar activity involving intensive motion.
 Circular movement is important, but there is other
 activity that is not patterned or excitable - almost
 random. Amusement Park is another strongly
 suggested ADL. A high level of excitement
 is present; people involved ~~as~~ seem to be present
 for mirth, education, enjoyment, thrill seeking,
 etc.
